CIAM Web workflow for SSO login

CIAM (Customer Identity Access Management) is crucial for any large organization that sells SaaS and connected device products. It safeguards customer data, protects customer identities, and serves as a foundation for creating a seamless user experience. CIAM acts as a central point where customers and sales channel users can self-manage their identity and access settings.

Integrating with CIAM ensures the necessary security for our customer data and improves the overall user experience for dealers and customers alike for licence activation, Enterprise and SiteLink 3D connection.
